Kia ora Bridgette,

Attached are both mine and Pita's reviews of your chapter. As mentioned, his is a little more extensive than mine - probably because this is more his area. I'm reading the chapter as an 'educated non-expert', and it appealed to me.

I have made some comments throughout the text, and have cut and pasted the commentary from my review into the bottom of your chapter - just so you don't have 3 documents to go through. I'll upload both Pita and my docs to the dropbox [if I can from here], so the others have access to it if they want.

Anyway, all the best with finalising this!
