## **EDITOR'S NOTE**

I received material for the Symposium Proceedings as fully transcribed audio tapes and PowerPoint files. I then endeavoured to edit the spoken word to a written word format and included graphs and pictures from the PowerPoint slides, with discretion, in the body of each presentation. Where possible slides that contained only words were incorporated into the document text. Not all slides were included. The papers were sent to the original presenter to ensure they were satisfied with the transcription.

Panel discussions and the Mayoral Forum have also been included. These are a little more difficult to transcribe and there may be some errors or misinterpretations in the editing.

I would like to thank all the presenters who have kindly helped with editing. It is a mammoth and laborious task. In the interests of expediency and accuracy I very much appreciated their support. I would also like to thank Janine Gauldie who transcribes the tapes extremely well and quickly, John Gifford and Warren Webber, LWQS members, who kindly helped edit some of the papers, Liz Miller who sits all the way through the symposium and notes the names of questioners and something of their comments so that we have an accurate record, and my husband John who looks for spelling, grammar and senseless meaning and does not mind the hours I spend on the computer. There will be further mistakes but it is more important to produce this document as quickly as possible.
